"By looking at the cross we learn to Love." St. Marie Eugenie

The word of St. Marie Eugenie gives me strength to my life to go to Jesus always. My greatest strength is my community. They are always with me in times of struggles and joys. The word of Sr. Rekha in her opening session that "money can buy lovely convent but not a loving community" has strengthened me to re affirm the love of my community. Where there is a loving community we experience the love of God which enables us to commit and dedicate our life totally and fully to the mission which is entrusted to us. This leads to move from 'having mission to becoming mission'. This helps me to fill my jar till the brim and to overflow always to my peripheries and to listen to the small voices. The coming together, learning together, sharing my own joys and sorrows, struggles and difficulties widened my horizons to understand my sisters and experience the love and communion.
